

## CITY OF REDDING ADOPTION PROGRAM GENERAL INFORMATION

Thank you for your interest in the City of Redding's Adopt-a-Park/Trail Program. Becoming an sponsor is very simple. A representative from your group or organization will need to act as an Captain (contact person) to coordinate the cleanup / improvement events. For your convenience, we will provide necessary equipment for the cleanup and post a sign in the area you adopt, signifying your participation as a sponsor. Areas adopted for cleanup must be cleaned a minimum of four times per year.

The two enclosed forms that **must be completed and returned** to the City of Redding's Park Maintenance office before the cleanup event are the *Application to Participate* and the *Waiver of Liability*.

All persons who participate **must** sign the Waiver of Liability prior to participation. For children under 18, a parent must sign the Waiver of Liability for their child in order for the child to participate. Any new persons wanting to join your group for subsequent cleanup events must also sign the Waiver of Liability prior to participation. Please have a copy of these forms with you during the cleanup, as they will serve as your documentation for participating in the Program. Also, please review the enclosed copies of the City's *Conditions of Participation* and *Safety Requirements*.

**Please call the Solid Waste Utility at (530) 224-6206 at least one week before the cleanup event to reserve** the following necessary equipment: Safety vests, safety signs, litter collection tools, and orange plastic bags. There is a limited amount of equipment, and many groups share the equipment. Equipment is typically available for pick up within two days of the cleanup event. You will pickup and return the equipment to the Solid Waste Transfer Station located at 2255 Abernathy Lane (they are open from Monday-Friday between 8:00 a.m. and 4:30 p.m.)

City collection crews will retrieve the filled, plastic bags during the week following the cleanup event or as time allows. Bags and bulky items; i.e., tires, mattresses, furniture, etc., should be placed along a roadside or parking lot area but in a location that will not obstruct traffic flow nor create a hazard.

Thank you again for your interest in the City of Redding's Adopt-a-Park/Trail Program. We all need to lend a hand to keep our public areas clean and litter free! The City of Redding relies on the dedicated help of service organizations, businesses and individuals, like you, to make the program successful.

If you have any questions, please do not hesitate to contact the City of Redding's Park Maintenance Division at (530) 224-6100.
