Delivery Date: _____ DELIVERY INSTRUCTIONS: _____

Contract Terms & Conditions: Container is to be filled no higher than level with the top. Lids should be closed. A container is primarily designed for the disposal of household waste and should not be used for construction debris. No dirt, rocks, concrete, bricks, asphalt, stumps, large appliances (washers, dryers, refrigerators, etc.), electronic waste (televisions, computer monitors, cell phones, radios, VCR, DVD players, etc.), fluorescent light bulbs, light ballasts, tires, liquids, batteries, pesticides, paint, nor other hazardous waste material are to be put into the container. Additional charges based upon actual labor, fuel, and vehicle expenses will apply for handling of prohibited items. The container will only be emptied and/or removed when requested by the customer. When an empty has been requested, the container must be placed as close to the street as possible.

Billing Information: Fee per empty: **\$33.92 (initial)** _____. The fees are effective July 1, 2011 through June 30, 2012. All Solid Waste charges include a 1.36% landfill monitoring fee. The fees are subject to change pending review and approval from the Redding City Council. Account must be brought current prior to extending services. Prepayment for empties may be required.

Extended Time: The Solid Waste office must be notified **2 business days** in advance for emptying and/or removal of the container. When a temporary container is not emptied within 14 consecutive days of its delivery or last collection, the account shall be assessed a fee from the 15th day forward until such time that the container is emptied or removed. The daily charge shall be equal to 1/14th of the applicable collection fee or: **\$ 2.42 (initial)** _____.

Time Frame for Keeping Container & Conditions for Redelivery: Use of the container is considered temporary and therefore it should be removed within a 60 day period. Note: It is the customer's responsibility to schedule the removal prior to the expiration of the 60 days. The Solid Waste Utility reserves the right to either remove a temporary container or convert it to permanent container status if the usage period exceeds 60 days. The appropriate permanent container charges would then apply for not less than 30 days. Upon the third request for a temporary container within a 6-month period, the City shall convert the temporary container to a permanent container status for not less than 90 days.

Unable to Collect: If a container is unable to be collected or serviced, due to overfilling, overweight, unacceptable material, inaccessibility, or for any other reason, the account will be assessed a charge of **\$16.01 (initial)** _____.

Relocate Only of Container (No Empty):

If a request is made to relocate a container, the account will be assessed a charge of **\$16.01 (initial)** _____.

Removal of Empty Container:

If a request is made to remove a container that is empty, the account will be assessed a charge of **\$16.01 (initial)** _____.

Late Fee: Accounts are subject to a delinquent notice fee and/or a late fee. At the time of billing, a late fee will be assessed on any unpaid balance.

I agree to be financially responsible for all applicable container charges set forth herein and further agree to indemnify and hold harmless the City of Redding for all damage to the container, property or body of third persons harmed by the use of the container during the term of this contract. By my signature, I acknowledge receipt of the contract and understand its terms and conditions.
